ing the kind of trees to plant in the parkway in front of his home. "Several "people advised elms." he writes, "but they are such slow growers, and as I am not young I would like to plant some kind that I will have a chance to enjoy. I am also thinking of planting four fruit trees in the yard, probably three cherries, as they seem to do better than most fruit trees, and a pear or an apple." The American elm is by far the

best tree for this purpose. It grows fast enough; starts to branch high and does not obstruct the view. It arches beautifully, high up over the street, and is a long-lived, hardwood variety not seriously affected by insects an fungus pests. :-

The American linden might grow little faster, but the tussock moth likes it too well. The American ash grows faster, but it soon gets shaggy is sus ceptible to boring insects and drops its leaves in August. The sycamore is good and a faster grower, but its bark is shaggy. The hackberry is just as good as the elm, but slower growing. The red and pin oaks are better, but no one has the patience to plant them. Do not plant cottonwood, box elders, soft maples, nor poplar where an elm hard maple, hackberry, oak or gingko

### NEED TO SHOW CIVIC PRIDE

ndividual Citizens Must Recognize They Are Responsible for Town's Good Appearance.

Prosperity and a spirit of progres have caused a vast change for the bet ter in the appearance and development of the smaller towns of the country in the past 25 years. This is strikingly noticeable in Indianal which for merly showed too many villages with ragged tedges, a uninviting testreets tumble down sheds and other unattractive features: (% 11784) Now the outlook of the traveler is quite different." He sees clean paved streets, cement sidewalks, beautiful shade trees, well-kept lawns, and a general appearance of cheerful well-

being. There are exceptions to the rule, however; Indiana has many beautiful towns, but there are still some which are slipshed and carry the sug-gestion that their public spirit languishes. Some stimulus to their pride something to encourage local improvepent and arouse the neople to the foct times, is needed. It might be done by, a state society that would grade the work, offer suggestions and show that a town may be made beautiful without great expense and with each citizen doing his part-indianapolis

### ADVANTAGES OF GOOD ROADS

Public Improvements Will Effect Material Reduction In High Cost of Living.

"Food products were never higher riced or more needed than they were this past year, and yet the food administration states that one-half of our perishable produce rotted on the ground for lack of transportation facilities,', said George C. Hubbs, sales laxative and gladly do se. You may manager for a large automobile concern. "Such a waste would be unheard of in Europe. It would spell national disaster. And at first thought it seems remarkable that it should be true of the country which has 229951 miles of railroad as against 349,391 miles for all the rest of the world put together, and 6,000,000 motor vehicles as against approximately 440,000 for the rest of the world.

"But we must remember that all this great network of railroads and waterways might as well not exist, so far as the farmer located five miles

Motor Trucks Help Farmer to Get His Produce to Market Cheaply and

back in the country is concerned, unless he is able to advantageously haul his produce over that five miles to the nearest shipping point. As Secretary Redfield recently put it. You might build the railroads up until they are ten tracks wide, but you do not fully help the farmer ten miles away to get his produce to market. And you might fill the rivers with steamers, and he may still be isolated.

"Motor cars and motor trucks are a partial solution. But they are not enough. To use them advantageously which the farmer can haul his produce in motor vehicles directly to the consumer, where possible, or else to the nearest shipping point. There never was a sounder investment in the world than money expended the building of good roads. The Romans had learned that 2,000 years ago, and they built their roads so well that some of them are used yet.

"Certainly one of the surest ways to reduce the high cost of living is to build more good roads. And the build now' campaign which Mr. Wilson, secretary of labor, has recently started should receive the hearty support of

### WILL TEACH HIGHWAY WORK

University of Michigan Announces Course in Boad Transport to Its Students.

# CHICKENS INCREASE SAVINGS

North Carolina Poultry Club Member Made Remarkable Record With Small Flock of Hens.

Prepared by the United States Department of Agriculture.) A net return of \$2 a hen over a fourmonths' period is the remarkable record of a North Carolina poultry club member who, about the middle of January, mated 15 White Leghorn hens with a standard-bred male of the same variety : During the ensuing four months these 15 hens laid 1,108 eggs. Of this number 50 were placed in the incubator, from which 41 chicks were hatched and all but five were raised. The owner-marketed six cockerels for \$3.60. He now has on hand 30 pullets. He sold 304 eggs for hatching purposes for \$30,50, as well as 541/2 dozen mar

his time was \$21.40, which leaves a net return of \$33.40.

This record is by no means exceptional, as, with the coming of the poultry club and with the development of enthusiasm among its members, egg producing as well as flock income returns, has greatly increased in every

Properly developed and fostered, fonitry is one of the most profitable side-lines in which most farmers can become interested, and, at present, there is hardly an activity of modern farming which will pay better than the maintenance and production of good

### GOOD SCALY LEG TREATMENT

for family use. Druggists everywhere Dip Affected Parts in Crude Oil or Kerosene-One Submersion Is Usually Sufficient.

Scaly leg is caused by a small inite

which burrows inderneath the scales of the legs, where it feeds and lays its minute eggs. The legs become so sore at times that fowls are unable to scratch for food or set on the roost. The treatment consists of dipping he legs in crude off. If not convenlent pure keresene may be used. Dip early enough so that the oil will dry before the fowls go on the roost, and ie threful that the oil does not get on the feathers One treatment is usually sufficient, but if the old scales have not peeled off after 30 days it should be repeated.

# LAYERS IN GOOD CONDITION

Eggs Can Be Produced in Fall and Early Winter as Easy as Spring if Hens Get Feed.

If the hens are in good condition the poultry keeper can get eggs just us well in the fall and early whiter as in spring, if they are fed exactly 12 hours apart every day in the year, and have ample time to eat the feed before go ing to roost. Professor Rice has the results of many practical tests made at Cornell and elsewhere to prove this statement.

### YOUNG FOWLS BEST LAYERS

Seldom Pays Poultry Keeper to Retain Hens for Laying After Two and One-Half Years Old.

There are people who have the right variety of fowis, who liouse and feed them properly, and yet who cannot obtain eggs ently in the winter because their fowls are too old. It is seldom that it pays to keep hens for laying ofter they are two and a half vears old; not that they will not give a profit. but that younger fowls will give a greater profit.

Chicken Mite Worst. The common chicken mire is the most troublesome of all external para-slies of poultry. They multiply rapid-ly during warm weather, and often cause serious losses before their pres-ence is discovered.

## The Effects of Oplates.

HAT INVANTS are peculiarly susceptible to opium and its various proparations, all of which are narcotic is well known. Even in the smallest doses, if continued, these opiates cause changes in the functions and growth of the cells which are likely to become permanent, causing imbedility mental perversion, a craving for alcohol or narcotics in later life. Nervous diseases, such as intraotable nervous dyspepsis and lack of staying powers are a result of dosing with opiates or harcotics to keep children quiet in their infancy. The rule among physicians is that children should never receive opiates in the smallest doses for more than a day at a time, and confirm avoidable.

only then if unavoidable

The administration of Anodynes, Drops, Cordials, Soothing Sysues and other narcotics to children by any but a paysician cannot be too strongly decried, and the druggist should not be a party to it. Children who are ill need the attention of a physician, and it is nothing less than a crime to dose them willfully with narcotics:

Music and various games held the interest of the guests resulting in a the interest of the guests, resulting in a tion between all classes and profes-delightful evening. Helecable refreshsions, who should he supporters of such institutions, we feel that this spending the summer delightfully in the little fair has served its purpose well, and that the people have caught a vision of what a real fair for Hancock county would mean. Like all other educational institutions, a fair can be made a success only by intel-

ligent management and by the hearty co-operation of the entire people

of the county.

We are particularly pleased with the interest shown by the rural peo-ple of the county and want to take Mr. A. G. Osolnach, the astute editor this opportunity to extend to you our thanks for your presence in such operation that made the fair possible. We also want to extend our thanks to the people of Bay St. Lous, who R. G. Campbell, of Campbell Island, served the fair in any capacity and

oughly enjoyed by the colored pelo-We want to commend them for their hearty co-operation in supportquartermaster department. He is a splendid ing the far, for their well-organized system of management and for the splendid interest shown in the events of the day. Realizing that real, wide-awake

county fairs are truly an educational institution and medium through which new ideas and methods are carried most readily to the rural people, and since the population of our great population is most rural, it be-hooves us to give our boys and girls the training that will best prepare them for life's burden and work as farmers, home-makers and country builders. There isn't a county in the State of Mississippi that put on a better agricultural fair than Hancock county. We stand ready to co-operate in promoting a fair for the com ing year; and would be delighted to hear from the public at large as to their wishes in regard to having a FRANK B. PITTMAN,
